## Test analytics

### Outcomes by priority

Stacked pass / fail / flaky / skipped for each priority tier.

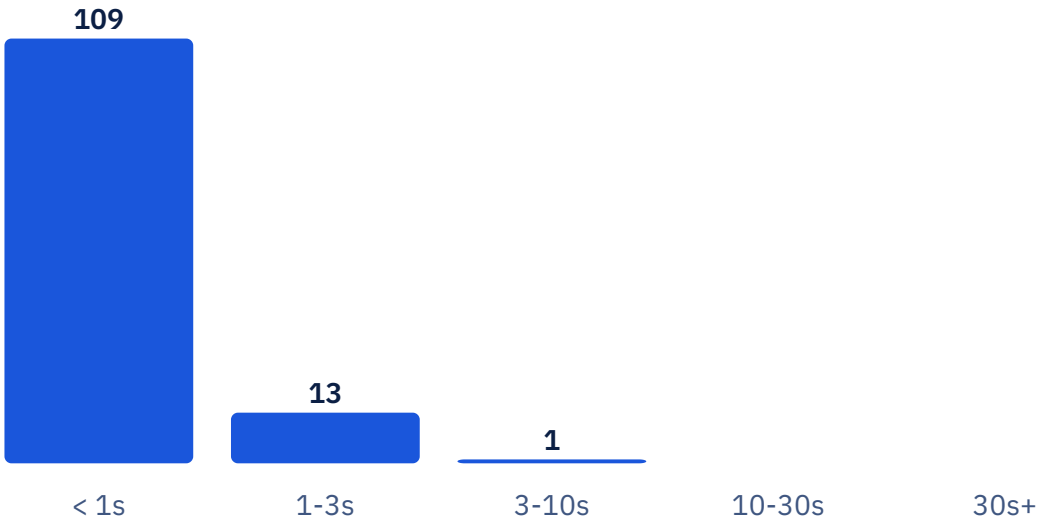

### Failure categories

What kinds of failures are hurting the suite.

Not enough data yet. Add meta({ priority }) or run the suite once more.

## Duration distribution

How the durations of the tests that ran are spread.

## Pass rate trend by priority

How each priority tier trends over the last runs.

## Owner leaderboard

Failures and flakes ranked by owner. Add meta({owner:...}) to see this.
